United States Government Has Its Eye on Route for Panama Canal.

#### NEW REPUBLIC ON THE MAP

This Country Will Consider Itself in Treaty Bound to Prevent Disorder.

(By Associated Press.)
WASHINGTON, D. C., Nov. 6.—The events of the day as they developed here relative to the situation on the isthmus were the recognition of the de facto gov ernment, the receipt of dispatches from Commander Hubbard, of the Nashville, the arrival in Washington of Consul-General Gudger, of Panama, and the isceed forthwith to the isthmus with the consul-general.

Commander Hubbard cabled that the Colombian government troops, under

Generals Torres and Tovar, 450 strong, at Colon, had departed on a merchant vessel. He stated that the isthmus from one side to the other was in the hands of the revolutionists.

This statement is of the greatest importance. The United States government being bound by treaty to maintain order and preserve free traffic across the isthmus, is now under the obligation to prevent any hostile collisions either along the line of the Panama Railway or at the termini, Panama and Colon. Thus the future attitude of the Colombian government towards the new republic of Panama becomes of little importance, for it is practically impossible for it to go Panama becomes of little importance, for it is practically impossible for it to go to war with Panama. Officials here familiar with the country declare that it is impossible to move a Colombian army overland to the isthmus, owing to the character of the country. On the other hand, if an attempt is made to bring troops either to Colon or Panama by water, the United States naval officers at those points would interfere.

A Protector. A Protector.

at those points would interfere.

A Protector.

Thus by force of treaty obligations repiring the maintenance of order across the isthmus as a necessary condition to free transit, the United States government practically has been placed in the Lesition of a protector to the new republic of Panama, and that, too, regardless of any bias on the part of the United States government towards either party to the strife in Colombia.

It was authoritatively stated to-day that though the recognition of the new republic is of a business character at first, consisting of an authorization throughout our consular officilias on the isthmus to do business with the new government as they did with the Colombian government, this will, in due time, be followed by full political recognition. This latter form of recognition will be deferred until the government at Panama has taken a more regular form.

It is presumed here that the junta will very soon issue a call for a convention, which will adopt a constitution and provide for the selection of a President. Then it will be in order for ministers to be appointed between the two countries, the United States and Panama, which will constitute full political recognition of the new State. That condition will enable the conduct of negotiations that may be necessary to the successful execution of the project of the United

that may be necessary to the successful execution of the project of the United States for the construction of the Isthman Canal, and it is a certainty that existing concessions will not suffer.

## Governor of Colombia.

Governor of Colombia.

(By Associated Press.)

COLON, COLOMBIA, Nov. 5.-9 A. M.—

The government of the Republic of Pansma last night appointed Senor Porferio Melendez, civil and military governor of Colon, pending the appointment of new officials. Those of the old government have been impotent since the troops left. The prefect, Senor Cuadros, and the alcaide, Senor Guerrivo, are now nonentities. They have not been arrested.

Governor Melendez has notified the officials that they may remain at their posts for the present if they swear allegiance to the new republic.

A steam launch was dispatched last night to capture Bocas Del Toro in the interest of the new republic. No difficulties are anticipated there.

The American employes of the railroad and others have been armed with rifles and revolvers supplied by the United States cruiser Nashville. Together with the latter's men, the volunteers presented a bold front Wednesday and Thursday afternoons to the Colombians, who were threatening the lives of Americans.

afternoons to the Colombians, who were threatening the lives of Americans. Thanks to the stand taken by Commander Hubbard, of the Nashville, the situation
